Directions:

This document has been provided in Microsoft Word format for the convenience of the district. The order of the template shall not be rearranged. Each section offers specific directions, but does not limit the amount of space or information that can be added to fit the needs of the district. All submitted documents shall be titled and paginated. Where documentation or evidence is required, copies of the source document(s) (for example, rubrics, policies and procedures, observation instruments) shall be provided. Upon completion, the district shall email the template and required supporting documentation for submission to the address DistrictEvalSysEQ@fldoe.org.

****Modifications to an approved evaluation system may be made by the district at any time. A revised evaluation system shall be submitted for approval, in accordance with Rule 6A-5.030(3), F.A.C. The entire template shall be sent for the approval process.**

1. Performance of Students

Directions:

The district shall provide:

- For all instructional personnel, the percentage of the evaluation that is based on the performance of students criterion as outlined in s. 1012.34(3)(a)1., F.S., along with an explanation of the scoring method, including how it is calculated and combined [Rule 6A-5.030(2)(a)1., F.A.C.].
- At least 33.3% of the evaluation is based on student learning growth assessed annually by statewide assessments. For subjects not measured by statewide assessments, the district will calculate student learning based on district-wide assessments developed by or approved by the district. The district will use the state-adopted student growth measures for courses associated with Florida Standards Assessments as well as those noted on page 4.
- **Teacher's Confidence Interval** – Using each teacher's mean student growth/performance and standard deviation, the District will calculate 99.9%, 99% and 50% Confidence Intervals for each teacher based on his/her assigned students. The Confidence Intervals provide a level of confidence that the teacher's classification is valid and reliable. The teacher's Confidence Intervals are defined as the teacher's mean plus or minus the z-value representing the desired confidence level multiplied by the result of the teacher's standard deviation divided by the square root of the number of students.
- For classroom teachers newly hired by the district, the student performance measure and scoring method for each evaluation, including how it is calculated and combined [Rule 6A-5.030(2)(a)2., F.A.C.].
- At least 33.3% of the evaluation is based on student learning growth assessed annually by statewide assessments. For subjects not measured by statewide assessments, the district will calculate student learning based on district-wide assessments developed by or approved by the district. The district will use the state-adopted student growth measures for courses associated with Florida Standards Assessments as well as those noted.
- The district will measure growth using equally appropriate formulas. The Florida Department of Education will provide the appropriate models. The district will have the option to request, through evaluation system review process, to use student

achievement, rather than growth, or combination of growth and achievement for classroom teachers where achievement is more appropriate.

- For all instructional personnel, confirmation of including student performance data for at least three years, including the current year and the two years immediately preceding the current year, when available. If less than the three most recent years of data are available, those years for which data are available must be used. If more than three years of student performance data are used, specify the years that will be used [Rule 6A-5.030(2)(a)3., F.A.C.].
- The state model is a core three-level covariate model that includes a calculation of the unique teacher effect plus one-half of the overall school effect. The teacher effect is the difference between the predicted performance and actual performance of the students connected with the teacher for each FSA reading and math test. The predicted performance is based on the *previous two years of FSA performance* by the student while taking into consideration the additional state approved variables.
- If less than three years of data are available, years for which data are available must be used. The district will include student learning growth data and other measurable student outcomes, as they are approved at the state or local level. If three years of student learning growth data are not available, years available must be used.
- For classroom teachers of students for courses assessed by statewide, standardized assessments under s. 1008.22, F.S., documentation that VAM results comprise at least one-third of the evaluation [Rule 6A-5.030(2)(a)4., F.A.C.].
- For classroom teachers of students for courses not assessed by statewide, standardized assessments, the district-determined student performance measure(s) [Rule 6A-5.030(2)(a)5., F.A.C.]
- For instructional personnel who are not classroom teachers, the district-determined student performance measure(s) [Rule 6A-5.030(2)(a)6., F.A.C.].

The following optional chart is provided for your convenience. Other ways to display information are acceptable. This chart is intended to address some of the bullets listed above, but additional documentation may be needed.

Student Performance Measures

<u>Student Performance Measure:</u>		
All instructional personnel will include student performance data for at least three years, including the current year and the two years immediately preceding the current year, when available. If less than the three most recent years of data are available, those years for which data are available must be used.

Manatee County will accept the state determined VAM score of each teacher. This score will be a 1-4 score, indicated by U to HE. The chart below demonstrates how this score will be converted to points for the summative evaluation score:

VAM Score Conversion	Categorical Score	= Points
4	Highly Effective	4
3	Effective	3
2	Needs Improvement/Developing	2
1	Unsatisfactory	1

Non-VAM Score Conversion (this will be used for assessments that don't have a conversion chart listed within the document)	Categorical Score	= Points

Entire 50% confidence interval is greater than the district average	Highly Effective	4
All teachers whose confidence intervals don't meet the classifications for the other categories	Effective	3
Entire 99% confidence interval is less than the district average and some portion of the 99.9% confidence interval is greater than the district average	Needs Improvement/Developing	2
Entire 99.9% confidence interval is less than the district average	Unsatisfactory	1

Manatee County will allow the site based principal to determine the student performance measure for the newly hired for the first evaluation and use non-VAM calculation for scoring.

2. Instructional Practice

Directions:

The district shall provide:

- For all instructional personnel, the percentage of the evaluation that is based on the instructional practice criterion as outlined in s. 1012.34(3)(a)2., F.S., along with an explanation of the scoring method, including how it is calculated and combined [Rule 6A-5.030(2)(b)1., F.A.C.].

- Description of the district evaluation framework for instructional personnel and the contemporary research basis in effective educational practices [Rule 6A-5.030(2)(b)2., F.A.C.].
- The Educator Accomplished Practices are set forth in rule as Florida's core standards for effective educators. The Accomplished Practices form the foundation for the state's teacher preparation programs, educator certification requirements and school district instructional personnel appraisal systems.

The Accomplished Practices are based upon and further describe three essential principles:

- The effective educator creates a culture of high expectations for all students by promoting the importance of education and each student's capacity for academic achievement.
- The effective educator demonstrates deep and comprehensive knowledge of the subject taught.
- The effective educator exemplifies the standards of the profession.

Teachers are evaluated using the *Danielson Framework for Teaching* (Danielson, 2007) rubrics aligned with each element within the components for each domain. Evaluators provide evidence documenting teacher performance within the components.

- For all instructional personnel, a crosswalk from the district's evaluation framework to the Educator Accomplished Practices demonstrating that the district's evaluation system contains indicators based upon each of the Educator Accomplished Practices [Rule 6A-5.030(2)(b)3., F.A.C.].

- For all instructional personnel, procedures for conducting observations and collecting data and other evidence of instructional practice [Rule 6A-5.030(2)(b)6., F.A.C.].
- The Danielson Framework for Teaching is the foundation of the Manatee County Teacher Evaluation System. As stated in the philosophy, the purpose of the system is to improve the quality of instructional, administrative, and supervisory service to increase student learning growth. Each teacher will be observed at least once during the year with new

teachers, probationary teachers, and teachers new to the district being observed at least twice during the year.

- An Initial Screening visit will be conducted by the evaluator within the first thirty (30) instructional days each year or within the first 30 days of initial employment for teachers new to the district and any teacher receiving a less than effective rating in Standard 1, 2, 3 or 4 on the prior year’s evaluation using the Initial Screening section of “My Professional Growth Plan” platform. Data collected during the initial screening shall be shared with the teacher as soon as practical for feedback and discussion, but no more than ten (10) days from the initial screening visit.
- Formal observations for evaluation purposes shall be performed using the Danielson Framework for Teaching rubrics and require prior notice to the teacher. Data collected during formal or informal observations that are to be used for evaluation purposes shall be shared with the teachers in a written form through “My Professional Growth Plan” platform within ten (10) days of the observation.
- Informal observations and brief Walk-through observations by an administrator may be conducted at any time. Walks may be scheduled or unscheduled visits to the classroom. Data collected on the Walk-through forms or by informal observations may be used to support demonstration of highly effective behavior, effective behavior, or highlight areas for further development. Data will be shared with the teacher as soon as practical for feedback and discussion, but no more than ten (10) days from the Walk-through.
- Trained observers may conduct Walk-through observations, brief seven to ten minute observations, and collect data using the Danielson Framework for Teaching rubrics focusing on Domain 2 – The Classroom Environment and Domain 3 – Instruction. All data collected for evaluation purposes will be documented through the “My Professional Growth Plan” platform and must be accessible for teacher feedback and acknowledgement through the platform. **A conference must be held for any Walk-through when improvements are noted that could negatively impact the evaluation or at the request of the teacher or administrator.** Walks in which no data will be used in the evaluation process do not require a conference or the maintenance of a form. However, feedback is always encouraged.
- Teachers to be evaluated and administrators responsible for evaluating teachers must be trained prior to any initial screening, observations, walk-throughs or any evaluation of a teacher’s performance. Training will be provided by the designated Manatee County Teacher Evaluation Committee members. Each year evaluators will be provided a review of the evaluation system as well as updates on any modifications made to the system. New evaluators will receive training by members of the evaluation committee prior to observing teachers.

TEACHER EVALUATION OBSERVATION PROCEDURES

OVERVIEW

The Danielson Framework for Teaching is the foundation of the Manatee County Teacher Evaluation System. As stated in the philosophy, the purpose of the system is to improve the quality of instructional, administrative, and supervisory service to increase student learning growth. Each teacher will be observed at least once during the year with new teachers, probationary teachers, and teachers new to the district being observed at least twice during the year.

An Initial Screening visit will be conducted by the evaluator within the first thirty (30) instructional days each year or within the first 30 days of initial employment for teachers new to the district and any teacher receiving a less than effective rating in Standard 1, 2, 3 or 4 on the prior year's evaluation using the Initial Screening section of "My Professional Growth Plan" platform. Data collected during the initial screening shall be shared with the teacher as soon as practical for feedback and discussion, but no more than ten (10) days from the initial screening visit.

Formal observations for evaluation purposes shall be performed using the Danielson Framework for Teaching rubrics and require prior notice to the teacher. Data collected during formal or informal observations that are to be used for evaluation purposes shall be shared with the teachers in a written form through "My Professional Growth Plan" platform within ten (10) days of the observation.

Informal observations and brief Walk-through observations by an administrator may be conducted at any time. Walks may be scheduled or unscheduled visits to the classroom. Data collected on the Walk-through forms or by informal observations may be used to support demonstration of highly effective behavior, effective behavior, or highlight areas for further development. Data will be shared with the teacher as soon as practical for feedback and discussion, but no more than ten (10) days from the Walk-through.

Trained observers may conduct Walk-through observations, brief seven to ten minute observations, and collect data using the Danielson Framework for Teaching rubrics focusing on Domain 2 – The Classroom Environment and Domain 3 – Instruction. All data collected for evaluation purposes will be documented through the "My Professional Growth Plan" platform and must be accessible for teacher feedback and acknowledgement through the platform. **A conference must be held for any Walk-through when improvements are noted that could negatively impact the evaluation or at the request of the teacher or administrator.** Walks in

which no data will be used in the evaluation process do not require a conference or the maintenance of a form. However, feedback is always encouraged.

Teachers to be evaluated and administrators responsible for evaluating teachers must be trained prior to any initial screening, observations, walk-throughs or any evaluation of a teacher's performance. Training will be provided by the designated Manatee County Teacher Evaluation Committee members. Each year evaluators will be provided a review of the evaluation system as well as updates on any modifications made to the system. New evaluators will receive training by members of the evaluation committee prior to observing teachers.

PRE-OBSERVATION CONFERENCE

The pre-observation tool contained within the "My Professional Growth Plan" platform may be used as evidence to demonstrate effective practices in Domains 1 and 4. The pre-observation conference will be used to support the expectations for Domain 1 – Planning and Preparation and Domain 4 – Professional Responsibilities. Domain 1 pertains to the specific observed lesson and Domain 4 pertains to yearly teaching practice. The teacher completes this form within the "My Professional Growth Plan" platform prior to the conference. This form may be modified as a result of the pre-observation conference. Examples of documentation for meeting these standards **may** include a Grade book page, student portfolios, data files, lesson plans, sample assessments, teacher-made tests, quizzes, exit tickets, entrance tickets, etc.

OBSERVATION PROCESS

"My Professional Growth Plan" platform will be used to gather evidence to support the expectations for Domain 2 – The Classroom Environment and Domain 3 – Instruction. The observer should arrive prior to the beginning of the lesson and stay for at least 30 minutes. Data or behaviors related to each of the expectations should be noted within the platform.

FEEDBACK AND CONFERENCES

A post-observation conference must be held and documented after each formal observation using the Post-Observation Conference Form. Observation notes should be shared with the teacher through the "My Professional Growth Plan" platform prior to the post-observation conference to facilitate teacher self-evaluation. **In addition, a conference must be held for any Initial Screening or Walk-through when improvements are noted that could negatively impact the evaluation or at the request of the teacher or administrator.** Conferences should cover the analysis of data collected from both parties, the identification of strengths and weaknesses (if any) and plans for improvement assistance or follow-up as needed. No data should be given to a teacher without the opportunity for feedback and discussion with the

administrator or supervisor. All initial documentation used for evaluation decisions must be included on the "My Professional Growth Plan" platform. A written follow up of a "problem centered" conference shall be documented within the "My Professional Growth Plan" platform and accessible to the teacher within ten (10) working days of the conference. The employee may provide a written response to any screening, observation, walk-through, evaluation or conference which shall be uploaded to the "My Professional Growth Plan" platform and included in the individual's personnel file.

Should necessary improvements become apparent during the observation, said improvements shall be discussed with the employee and noted within "My Professional Growth Plan" platform together with:

- a. specific improvement(s) desired,
- b. time for improvement(s) to be made,
- c. assistance to be provided, if necessary.

CONTINUOUS IMPROVEMENT

The Principal or designee shall meet with all teachers at the beginning of the year to review the evaluation and observation process and to discuss the Professional Development Plan (PDP) and to jointly establish deliberate practice improvement goals for the year. For teachers new to the district the principal shall meet with the teacher to finalize the PDP, following the initial screening or first observation.

Standards and Indicators

DOMAIN 1: Planning and Preparation

Effective educators organize instruction into a sequence of activities and exercises necessary to make learning accessible for all students. Components of Domain 1 include:

- **Demonstrating Knowledge of Content and Pedagogy**
 - Knowledge of Content and the Structure of the Discipline
 - Knowledge of Prerequisite Relationships
 - Knowledge of Content-Related Pedagogy
- **Demonstrating Knowledge of Students**
 - Knowledge of Child and Adolescent Development
 - Knowledge of the Learning Process
 - Knowledge of Students' Skills, Knowledge, and Language Proficiency
 - Knowledge of Students' Interests and Cultural Heritage
 - Knowledge of Students' Special Needs
- **Selecting Instructional Outcomes**

- Value, Sequence, and Alignment
- Clarity
- Balance
- Suitability for Diverse Learners
- **Demonstrating Knowledge of Resources**
 - Resources for Classroom Use
 - Resources to Extend Content Knowledge and Pedagogy
 - Resources for Students
- **Designing Coherent Instruction**
 - Learning Activities
 - Instructional Materials and Resources
 - Instructional Groups
 - Lesson and Unit Structure
- **Designing Student Assessment**
 - Congruence with Instructional Outcomes
 - Criteria and Standards
 - Design of Formative Assessments
 - Use in Future Planning

DOMAIN 2: The Classroom Environment

Effective educators establish procedures and transition to ensure students are engaged in active learning activities. Components of Domain 2 include:

- **Creating an Environment of Respect and Rapport**
 - Teacher Interaction with Students
 - Student Interactions with One Another
- **Establishing a Culture for Learning**
 - Importance of the Content
 - Expectations for Learning and Achievement
 - Student Pride in Work
- **Managing Classroom Procedures**
 - Management of Instructional Groups
 - Management of Transitions

DOMAIN 4: REFLECTING ON TEACHING Component 4f: Showing Professionalism	Teacher can be counted on to hold the highest standards of honesty, integrity, and confidentiality and takes a leadership role with colleagues.	Teacher displays high standards of honesty, integrity, and confidentiality in interactions with colleagues, students, and the public.	Teacher is honest in interactions with colleagues, students, and the public.	Teacher displays dishonesty in interactions with colleagues, students, and the public.
	Teacher complies fully with school and district regulations, taking a leadership role with colleagues to help ensure that such decisions are based on the highest professional standards.	Teacher complies fully with school and district regulations and participates in team or departmental decision making.	Teacher complies minimally with school and district regulations, doing just enough to get by. Teacher decisions are based on limited professional consideration.	Teacher does not comply with school and district regulations. Teacher decisions are based on self-serving criteria.

The following optional chart is provided for your convenience to display the crosswalk of the district's evaluation framework to the Educator Accomplished Practices. Other methods to display information are acceptable, as long as each standard and descriptor is addressed.

Alignment to the Florida Educator Accomplished Practices (FEAP)	
Practice	Evaluation Indicators
1. Instructional Design and Lesson Planning	
Applying concepts from human development and learning theories, the effective educator consistently:	
a. Aligns instruction with state-adopted standards at the appropriate level of rigor;	1a, 1b, 1c, 1d, 1e
b. Sequences lessons and concepts to ensure coherence and required prior knowledge;	1a, 1b, 1c, 1e
c. Designs instruction for students to achieve mastery;	1b, 1e, 1f
d. Selects appropriate formative assessments to monitor learning;	1f
e. Uses diagnostic student data to plan lessons; and,	1b, 1e, 1f, 3d
f. Develops learning experiences that require students to demonstrate a variety of applicable skills and competencies.	1e
2. The Learning Environment	
To maintain a student-centered learning environment that is safe, organized, equitable, flexible, inclusive, and collaborative, the effective educator consistently:	
a. Organizes, allocates, and manages the resources of time, space, and attention;	2c, 2e
b. Manages individual and class behaviors through a well-planned management system;	2d, 2c
c. Conveys high expectations to all students;	2b
d. Respects students' cultural linguistic and family background;	2a
e. Models clear, acceptable oral and written communication skills;	3a
f. Maintains a climate of openness, inquiry, fairness and support;	2a, 2b
g. Integrates current information and communication technologies;	Domain 1, 3, 4
h. Adapts the learning environment to accommodate the differing needs and diversity of students; and	Domain 1, 3
i. Utilizes current and emerging assistive technologies that enable students to participate in high-quality communication interactions and achieve their educational goals.	Domain 1, 3, 4
3. Instructional Delivery and Facilitation	
The effective educator consistently utilizes a deep and comprehensive knowledge of the subject taught to:	
a. Deliver engaging and challenging lessons;	3c
b. Deepen and enrich students' understanding through content area literacy strategies, verbalization of thought, and application of the subject matter;	3c
c. Identify gaps in students' subject matter knowledge;	3d
d. Modify instruction to respond to preconceptions or misconceptions;	3e
e. Relate and integrate the subject matter with other disciplines and life experiences;	1e, 3c
f. Employ higher-order questioning techniques;	3b
g. Apply varied instructional strategies and resources, including appropriate technology, to provide <u>comprehensible instruction</u> , and to teach for student understanding;	1a, 1d, 2e, 3c
h. Differentiate instruction based on an assessment of student learning needs and recognition of individual differences in students;	1b, 3d, 3c
i. Support, encourage, and provide immediate and specific feedback to students to promote student achievement;	2b, 3d
j. Utilize student feedback to monitor instructional needs and to adjust instruction.	3d, 3e
4. Assessment	
The effective educator consistently:	
a. Analyzes and applies data from multiple assessments and measures to diagnose students' learning needs, informs instruction based on those needs, and drives the learning process;	1b, 1c, 1e, 3d
b. Designs and aligns formative and summative assessments that match learning objectives and lead to mastery;	1f
c. Uses a variety of assessment tools to monitor student progress, achievement and learning gains;	3d

d. Modifies assessments and testing conditions to accommodate learning styles and varying levels of knowledge;	1f, 3d, 3e
e. Shares the importance and outcomes of student assessment data with the student and the student's parent/caregiver(s); and,	3d, 4c
f. Applies technology to organize and integrate assessment information.	Domain 1, 3, 4, 4b
5. Continuous Professional Improvement The effective educator consistently:	
a. Designs purposeful professional goals to strengthen the effectiveness of instruction based on students' needs;	
b. Examines and uses data-informed research to improve instruction and student achievement;	
c. Uses a variety of data, independently, and in collaboration with colleagues, to evaluate learning outcomes, <u>adjust planning and continuously improve the effectiveness of the lessons;</u>	
d. Collaborates with the home, school and larger communities to foster communication and to support student learning and continuous improvement;	
e. Engages in targeted professional growth opportunities and reflective practices; and,	
f. Implements knowledge and skills learned in professional development in the teaching and learning process.	
6. Professional Responsibility and Ethical Conduct	
Understanding that educators are held to a high moral standard in a community, the effective educator adheres to the Code of Ethics and the Principles of Professional Conduct of the Education Profession of Florida, pursuant to Rules 6A-10.080 and 6A-10.081, F.A.C., and fulfills the expected obligations to students, the public and the education profession.	

3. Other Indicators of Performance

Directions:

The district shall provide:

- The additional performance indicators, if the district chooses to include such additional indicators pursuant to s. 1012.34(3)(a)4., F.S.;
- Individual Professional Development Plan
- The percentage of the final evaluation that is based upon the additional indicators; and
- The scoring method, including how it is calculated and combined [Rule 6A-5.030(2)(d), F.A.C.].

Individual Professional Development Plan counts for 16.7% of the Instructional Practice Score. The Professional Development Plan will be rated using a rubric. Points for each rating are as follows: Highly Effective=4 (.668), Effective=3 (.5001), Needs Improvement=2 (.3334), Unsatisfactory=1 (.1667). The calculation for the summative evaluation is a weighted average of the teacher observation data plus the student learning growth data as shown in the formula below:

$$\text{Final Summative Evaluation Rating} = (.1667 \times \text{Professional Growth Plan}) + (.5 \times \text{Student Learning Growth}) + (.5 (.2 \times a + .3 \times b + .3 \times c + .2 \times d))$$

- This point total will be combined with the Instructional Practice score and the VAM/Growth Score to create a Final Annual Evaluation score and rating.
- The calculated final rating is compared to the categories below to assign the classification level.

Highly Effective	Effective	Needs Improvement/ Developing	Unsatisfactory
3.5 – 4.0	2.5 – 3.49	1.5 – 2.49	1.0 – 1.49

Examples include the following:

- Deliberate Practice - the selection of indicators or practices, improvement on which is measured during an evaluation period
- Peer Reviews
- Objectively reliable survey information from students and parents based on teaching practices that are consistently associated with higher student achievement
- Individual Professional Development Plan
- Other indicators, as selected by the district

DELIBERATE PRACTICE- PROFESSIONAL DEVELOPMENT PLAN

OVERVIEW

The Professional Development Plan will be used to support a teacher’s growth. In collaboration with the school administrator, teachers will receive feedback that is timely, ongoing, constructive, and focused on specific observed behaviors and student learning data. The PDP is designed to facilitate deliberate practice, a highly mentally demanding process, requiring high levels of focus and concentration intent on improving the teacher’s performance. It provides for self-reflection, SMART goal-setting, focused relevant practice and specific feedback for all teachers, regardless of experience and expertise.

PROCEDURES

The employee, or employee team, completes the demographic information in the beginning of the PDP.

The employee begins to develop the PDP SMART goals/objectives, strategies and timelines. The final goal(s) are developed and the final draft of the PDP is prepared within the “My Professional Growth Plan” platform and acknowledged by the teacher and the supervisor prior to the end of the first quarter. Conferences may be held but are not required unless requested by the teacher or administrator. The PDP for teachers new to the district is to be completed following the Initial Screening or the first post observation conference. The PDP timeline includes a proposed date for a final conference to occur prior to the completion of the Summative Evaluation.

If the timeline provides for a mid-year PDP monitoring conference the teacher reflects on the progress to date and completes the Monitor and Review prior to the conference on the PDP. The supervisor provides feedback through the Monitor and Review section of the PDP during the mid-year conference for teachers new to the district prior to the completion of the First Semester Summative Evaluation.

Prior to the final conference on the PDP, the teacher reflects on the goals, strategies and outcomes of the PDP and completes the Professional Development Plan Evaluation section of the PDP. The supervisor provides feedback during the conference pertaining to the PDP Evaluation section. The final PDP conference also provides the review and rating of the PDP using the Continuous Professional Development rubric. The PDP rating will account for 16.7% of the final evaluation score.

Professional Development Plan Rubric:

Highly Effective:

The Professional Development Plan demonstrated a direct correlation to needs indicated by student assessment and/or data and the educator’s previous evaluation, credentials and/or self-assessment. Two or more SMART goals were set. Strategies were specific, fully-developed and focused on improving or changing professional practice for the purposes of improved student learning. The educator reviewed his/her plan during the school year, and readily adjusted the plan only when ongoing evidence indicated the need. The educator not only completed all activities identified in growth plan, but identified strategies and resulting evidence that ultimately improved or changed the educator’s practice in an effort to improve student learning. The educator’s reflection provided extensive and thorough evidence of why the educator implemented those strategies and how and why the chosen strategies improved or changed his/her practice. In the course of implementing the plan, the educator collaborated with other educators in a deliberate and meaningful way. Results of the plan were effectively shared and impacted the practice of others.

Effective:

The Professional Development Plan demonstrated a direct correlation to needs indicated by student assessment and/or learning data and the educator’s previous evaluation, credentials and/or self-assessment. At least one SMART goal was set that aligns with the Florida Educator Accomplished Practices. Strategies were specific, well-developed and focused on improving or changing professional practice for the purposes of improved student learning. The educator reviewed his/her plan during the school year and, only if necessary, made adjustments to the plan. The educator completed all activities identified in growth plan and produced evidence that identified strategies were implemented in the classroom. The educator’s reflection made adequate connections between student data and the strategies the educator chose to implement. In the course of implementing the plan, the educator collaborated with other educators in a meaningful way. Results of the plan were shared with departments or grade levels and may have had an impact on some colleagues.

Needs Improvement/Developing:

The Professional Development Plan demonstrated some correlation to needs indicated by student assessment and/or learning data and the educator’s previous evaluation, credentials and/or self-assessment. A learning goal was set but was missing one or more components of a SMART goal. The goal may not have aligned with the Florida Educator Accomplished Practices. Strategies were loosely-focused on improving or changing professional practice for the purposes of improved student learning. The educator reviewed his/her plan during the school year, but made few or no adjustments to the plan unless suggested by the evaluator. The educator’s reflection demonstrated that he/she completed most or all activities identified in the growth plan, but provided limited evidence of implementation or how it improved or changed his/her practice. The educator’s attempts to collaborate with others were not deliberate and contributed little to the evidence. Results of the plan were minimally shared with others.

Unsatisfactory:

The Professional Development Plan did not directly correlate to needs indicated by student assessment and/or learning data and the educator’s previous evaluation, credentials and/or self-assessment. A learning goal was missing or a learning goal was set but lacked the clarity of a SMART goal. Strategies were not clear or did not specifically focus on improving or changing professional practice for the purposes of improved student learning. The educator reviewed his/her plan during the school year but did not recognize or accept the need to make adjustments to the plan. The educator’s reflection (if one exists) provided little evidence that the strategies were implemented or how those strategies improved or changed his/her practice. There was minimal or no evidence to support the plan. The educator did not collaborate with others in a meaningful way. Results of the plan were not shared with others.

4. Summative Evaluation Score

Directions:

The district shall provide:

- The summative evaluation form(s); and
- The Manatee County Teacher Final Summative Evaluation Form and the Mid-Year Summative Evaluation Form are used to summarize the teacher’s performance related to the four Domains included in the Danielson Framework for Teaching. The summary form is not to be used as a checklist or observation instrument. All areas determined to be less than effective must have supporting documentation in the teacher's file at the school site. All areas marked “Highly Effective” must have supporting documentation in the teacher’s file at the school site.
- The Mid-Year Summative Evaluation Form and the Final Summative Evaluation Form are to be completed during a conference with a teacher. The data upon which the completion of the form is based may come from a variety of sources: supervisor observation forms or notations, the Initial Screening Form, Walk-through observation forms, the teacher's individualized Professional Development Plan (PDP), portfolios, sample teacher and student products, conference notes and the like.
- The Mid-Year Summative Evaluation Form and the Final Summative Evaluation Form are most effective when they capture the items observed utilizing the Teacher Evaluation Observation Tools, Walk-through Observation Tools and portfolio forms including the PDP. All data sources used for evaluation purposes must be kept at the school in the teacher's personnel file and shared with the teacher.
- No item can be marked “Highly Effective,” “Needs Improvement/Developing” or “Unsatisfactory” unless there is supporting documentation.
- The scoring method, including how it is calculated and combined; and
- The calculation for the summative evaluation is a weighted average of the teacher observation data plus the student learning growth data as shown in the formula below:
 - Final Summative Evaluation Rating = (.5 (.2 x a + .3 x b + .3 x c + .2 x d))
A=20% - Planning and Preparation
B=30% - Classroom Environment
C=30% - Instruction
D=20% - Professional Responsibilities

The Final Summative Evaluation is combined with the Professional Development Plan score and the VAM or Student Growth Score to calculate a Final Annual Score.

33.3% (SPM) + 16.7% (PDP) + 50% (IPS) = Final Summative Score

- The calculated final rating is compared to the categories below to assign the classification level.

Highly Effective	Effective	Needs Improvement/ Developing	Unsatisfactory
3.5 – 4.0	2.5 – 3.49	1.5 – 2.49	1.0 – 1.49

- The performance standards used to determine the summative evaluation rating. Districts shall use the four performance levels provided in s. 1012.34(2)(e), F.S. [Rule 6A-5.030(2)(e), F.A.C.].
- Based on the demonstration of effective teaching and documented improvement in student performance, an evaluation is made by the principal or program administrator as to overall “Highly Effective”, “Effective”, “Needs Improvement/Developing” or “Unsatisfactory” performance. This judgment forms the basis of the First Semester or Annual Summative Evaluation, but must reflect data collected during the evaluation cycle, summarized on the appropriate forms and shared during an annual or end of first semester conference.

5. Additional Requirements

Directions:

The district shall provide:

- Confirmation that the district provides instructional personnel the opportunity to review their class rosters for accuracy and to correct any mistakes [Rule 6A-5.030(2)(f)1., F.A.C.]

Teachers will have the review their class rosters through the roster verification process.

- Documentation that the evaluator is the individual who is responsible for supervising the employee. An evaluator may consider input from other personnel trained in evaluation practices. If input is provided by other personnel, identify the additional positions or persons. Examples include assistant principals, peers, district staff, department heads, grade level chairpersons, or team leaders [Rule 6A-5.030(2)(f)2., F.A.C.].

Teachers to be evaluated and administrators responsible for evaluating teachers must be trained prior to any initial screening, observations, walk-throughs or any evaluation of a teacher's performance.

The annual final evaluation is based on data collected during the year by the principal, assistant principal, project manager, program coordinator or his/her designee, and the teacher.

- Description of training programs and processes to ensure that all employees subject to an evaluation system are informed on evaluation criteria, data sources, methodologies, and procedures associated with the evaluation before the evaluation takes place, and that all individuals with evaluation responsibilities and those who provide input toward evaluation understand the proper use of the evaluation criteria and procedures [Rule 6A-5.030(2)(f)3., F.A.C.].

Teachers to be evaluated and administrators responsible for evaluating teachers must be trained prior to any initial screening, observations, walk-throughs or any evaluation of a teacher's performance. Training will be provided by the designated Manatee County Teacher Evaluation Committee members. Each year evaluators will be provided a review of the evaluation system as well as updates on any

modifications made to the system. New evaluators will receive training by members of the evaluation committee prior to observing teachers.

- Description of processes for providing timely feedback to the individual being evaluated [Rule 6A-5.030(2)(f)4., F.A.C.].

Data collected during formal or informal observations that are to be used for evaluation purposes shall be shared with the teachers in a written form through “My Professional Growth Plan” platform within ten (10) days of the observation.

- Description of how results from the evaluation system will be used for professional development [Rule 6A-5.030(2)(f)5., F.A.C.].

The primary purpose of the Manatee County Performance Feedback Process is to provide a sound basis for teacher improvement and professional growth that will increase student learning growth. This is accomplished through an evaluation of teacher effectiveness and subsequent discussions between the teacher and a supervisor or other observer. The process assumes the competence of the majority of teachers and focuses on professional development in the context of student performance gains first, while documenting competency on an annual basis.

- Confirmation that the district will require participation in specific professional development programs by those who have been evaluated as less than effective as required by s. 1012.98(10), F.S. [Rule 6A-5.030(2)(f)6., F.A.C.].

Any teacher evaluated as less than effective will be required to participate in professional development programs specific to the areas in which they were rated as needs improvement or unsatisfactory. Teachers must provide documentation that they successfully completed the professional development activities.

- Documentation that all instructional personnel must be evaluated at least once a year [Rule 6A-5.030(2)(f)7., F.A.C.].

All instructional personnel will be observed at least once during the year with new teachers, probationary teachers, and teachers new to the district being observed at least twice during the year.

- Documentation that classroom teachers are observed and evaluated at least once a year [Rule 6A-5.030(2)(f)8., F.A.C.].

A summative evaluation takes place annually for all classroom teachers

- Documentation that classroom teachers newly hired by the district are observed and evaluated at least twice in the first year of teaching in the district pursuant to s. 1012.34(3)(a), F.S. [Rule 6A-5.030(2)(f)8., F.A.C.].
- Manatee County will evaluate all newly hired by the district at least twice in the first year of teaching in the district.
- Documentation that the evaluation system for instructional personnel includes opportunities for parents to provide input into performance evaluations when the district determines such input is appropriate, and a description of the criteria for inclusion, and the manner of inclusion of parental input [Rule 6A-5.030(2)(f)9., F.A.C.].

N/A

- Identification of teaching fields, if any, for which special evaluation procedures and criteria are necessary [Rule 6A-5.030(2)(f)10., F.A.C.].

N/A

- Description of the district's peer assistance process, if any. Peer assistance may be part of the regular evaluation system, or used to assist personnel who are placed on performance probation, or who request assistance, or newly hired classroom teachers [Rule 6A-5.030(2)(f)11., F.A.C.].

Mentor teachers are provided for all first year teachers. Peer teachers may be assigned at the school level as determined by the Principal. Teacher assistance is available to all teachers through the Office of Professional Learning.

6. District Evaluation Procedures

Directions:

Manatee County will provide evidence that its evaluation policies and procedures comply with the following statutory requirements:

- In accordance with s. 1012.34(3)(c), F.S., the evaluator must:
 - submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract [Rule 6A-5.030(2)(g)1., F.A.C.].

Following the annual or end of first semester evaluation conference, the site administrator and staff sign the appropriate summary forms. An electronic copy is submitted to the human resources department within the timelines established annually.

- submit the written report to the employee no later than 10 days after the evaluation takes place [Rule 6A-5.030(2)(g)2., F.A.C.].

Data collected during formal or informal observations that are to be used for evaluation purposes shall be shared with the teachers in a written form through "My Professional Growth Plan" platform within ten (10) days of the observation.

- discuss the written evaluation report with the employee [Rule 6A-5.030(2)(g)3., F.A.C.].

Data will be shared with the teacher through "My Professional Growth Plan" platform as soon as practical for feedback and discussion.

- The employee shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file [Rule 6A-5.030(2)(g)4., F.A.C.].

The employee may provide a written response to any observation form, evaluation or conference which shall be attached to the original report or form and included in the individual's personnel file.

- The district shall provide evidence that its evaluation procedures for notification of unsatisfactory performance comply with the requirements outlined in s. 1012.34(4), F.S. [Rule 6A-5.030(2)(h), F.A.C.].

Should necessary improvements become apparent during the appraisal process, said improvements shall be discussed with the employee and noted on the observation/evaluation form together with:

- specific improvement(s) desired,
- time for improvement(s) to be made,
- assistance to be provided, if necessary.

- Documentation the district has complied with the requirement that the district school superintendent shall annually notify the Department of any instructional personnel who receive two consecutive unsatisfactory evaluations and shall notify the Department of any instructional personnel who are given written notice by the district of intent to terminate or not renew their employment, as outlined in s. 1012.34(5), F.S. [Rule 6A-5.030(2)(i), F.A.C.].

Instructional personnel who receive two consecutive overall “Unsatisfactory” evaluations will be identified by the human resources department. The Superintendent shall notify the Department of Education of those individuals, utilizing procedures described in State Board Rule.

.....

7. District Self-Monitoring

Directions:

The district shall provide a description of its process for annually monitoring its evaluation system. The district self-monitoring shall determine the following:

- Evaluators' understanding of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability; [Rule 6A-5.030(2)(j)1., F.A.C.]

Evaluators participate in annual evaluation calibration/inter-rater reliability trainings. All Administrators view a Charlotte Danielson video and then have to rate it as if it were an observation. We then compare to check for inter-rater reliability. We continue to calibrate with videos from Charlotte Danielson during our small group principal and assistant principal meetings throughout the year.

- Evaluators provide necessary and timely feedback to employees being evaluated; [Rule 6A-5.030(2)(j)2., F.A.C.]

Evaluators are required to provide timely feedback to employees being evaluated. Time limits vary with activity, however the general practice is to provide feedback in no less than 10 from the time the evidence was collected. This includes our post conference with ratings as well as the acknowledgement within our program to show teachers have seen the evidence and ratings.

- Evaluators follow district policies and procedures in the implementation of evaluation system(s); [Rule 6A-5.030(2)(j)3., F.A.C.]

Evaluators are required to evaluate instructional employees based on their assigned evaluation cycle; A (new to Manatee County), B (rated less than Effective year before) or C (rated Effective or Highly Effective) the year before. Each cycle has different criteria for evaluating instructional personnel.

- Use of evaluation data to identify individual professional development; [Rule 6A-5.030(2)(j)4., F.A.C.]

Evaluators may recommend or require specific professional development to an instructional employee based on evaluation data. When a teacher shows a weakness based on the objective rubric per Charlotte Danielson. Administrators can assign professional development within our program MyPGS. We have built several

PD trainings including those from Charlotte Danielson and Educational Impact. Teachers also receive points for courses they take within our system.

- Use of evaluation data to inform school and district improvement plans [Rule 6A-5.030(2)(j)5., F.A.C.].

Evaluation data is taken into consideration when creating School Improvement Plans. Each school can pull data to see strengths and weaknesses within the building. For instance if questioning techniques is a weakness within the building, the district would expect to see this as a goal within the SIP plan when looking to improve student achievement. It may also be listed as a strategy to help a particular goal related to increasing student achievement with the SIP plan.

The district personnel and principals meet annually to review the Instructional Evaluation System to determine compliance with the Florida Statute. The team usually meets in the summer of each year to evaluate the effectiveness of the system. During the review, the team determines if:

- The evaluator understands of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability.
- The evaluator provides necessary and timely feedback to the employees being evaluated.
- The use of evaluation data is used to identify individual professional development.
- The use of evaluation data is used to inform school and district improvement plan.

The team looks at the performance evaluation results from the prior school year for all instructional personnel using the four levels of performance. The performance evaluation results for instructional personnel are disaggregated by classroom teacher and all other instructional personnel; by school site; and by instructional level. School grades and state and local assessment data are also reviewed by school and district and compared to the performance evaluation data. Results of this data analysis are used by individual schools and the district to set school improvement goals and plan for individual, school and district professional development activities.

Changes and revisions to the teacher evaluation system will be recommended. All substantial revisions will be reviewed and approved by the district school board before being used to evaluate teachers.

Appendix A – Checklist for Approval

Performance of Students

The district has provided and meets the following criteria:

For all instructional personnel:

- The percentage of the evaluation that is based on the performance of students criterion.
- An explanation of the scoring method, including how it is calculated and combined.
- At least one-third of the evaluation is based on performance of students.

For classroom teachers newly hired by the district:

- The student performance measure(s).
- Scoring method for each evaluation, including how it is calculated and combined.

For all instructional personnel, confirmed the inclusion of student performance:

- Data for at least three years, including the current year and the two years immediately preceding the current year, when available.
- If less than the three most recent years of data are available, those years for which data are available must be used.
- If more than three years of student performance data are used, specified the years that will be used.

For classroom teachers of students for courses assessed by statewide, standardized assessments:

- Documented that VAM results comprise at least one-third of the evaluation.

- For teachers assigned a combination of courses that are associated with the statewide, standardized assessments and that are not, the portion of the evaluation that is comprised of the VAM results is identified, and the VAM results are given proportional weight according to a methodology selected by the district.

For all instructional personnel of students for courses not assessed by statewide, standardized assessments:

- For classroom teachers, the district-determined student performance measure(s) used for personnel evaluations.
- For instructional personnel who are not classroom teachers, the district-determined student performance measure(s) used for personnel evaluations.

Instructional Practice

The district has provided and meets the following criteria:

For all instructional personnel:

- The percentage of the evaluation system that is based on the instructional practice criterion.
- At least one-third of the evaluation is based on instructional practice.
- An explanation of the scoring method, including how it is calculated and combined.
- The district evaluation framework for instructional personnel is based on contemporary research in effective educational practices.

For all instructional personnel:

- A crosswalk from the district's evaluation framework to the Educator Accomplished Practices demonstrating that the district's evaluation system contains indicators based upon each of the Educator Accomplished Practices.

For classroom teachers:

- The observation instrument(s) that include indicators based on each of the Educator Accomplished Practices.

For non-classroom instructional personnel:

- The evaluation instrument(s) that include indicators based on each of the Educator Accomplished Practices.

For all instructional personnel:

- Procedures for conducting observations and collecting data and other evidence of instructional practice.

Other Indicators of Performance

The district has provided and meets the following criteria:

- Described the additional performance indicators, if any.
- The percentage of the final evaluation that is based upon the additional indicators.
- The scoring method, including how it is calculated and combined.

Summative Evaluation Score

The district has provided and meets the following criteria:

- Summative evaluation form(s).
- Scoring method, including how it is calculated and combined.
- The performance standards used to determine the summative evaluation rating (the four performance levels: highly effective, effective, needs improvement/developing, unsatisfactory).

Additional Requirements

The district has provided and meets the following criteria:

- Confirmation that the district provides instructional personnel the opportunity to review their class rosters for accuracy and to correct any mistakes.
- Documented that the evaluator is the individual who is responsible for supervising the employee.
- Identified additional positions or persons who provide input toward the evaluation, if any.

Description of training programs:

- Processes to ensure that all employees subject to an evaluation system are informed on evaluation criteria, data sources, methodologies, and procedures associated with the evaluation before the evaluation takes place.
- Processes to ensure that all individuals with evaluation responsibilities and those who provide input toward evaluation understand the proper use of the evaluation criteria and procedures.

Documented:

- Processes for providing timely feedback to the individual being evaluated.
- Description of how results from the evaluation system will be used for professional development.
- Requirement for participation in specific professional development programs by those who have been evaluated as less than effective.
- All instructional personnel must be evaluated at least once a year.
- All classroom teachers must be observed and evaluated at least once a year.

- Newly hired classroom teachers are observed and evaluated at least twice in the first year of teaching in the district.

For instructional personnel:

- Inclusion of opportunities for parents to provide input into performance evaluations when the district determines such input is appropriate.
- Description of the district's criteria for inclusion of parental input.
- Description of manner of inclusion of parental input.
- Identification of the teaching fields, if any, for which special evaluation procedures and criteria are necessary.
- Description of the district's peer assistance process, if any.

District Evaluation Procedures

The district has provided and meets the following criteria:

- That its evaluation procedures comply with s. 1012.34(3)(c), F.S., including:
 - That the evaluator must submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract.
 - That the evaluator must submit the written report to the employee no later than 10 days after the evaluation takes place.
 - That the evaluator must discuss the written evaluation report with the employee.
 - That the employee shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file.
- That the District's procedures for notification of unsatisfactory performance meet the requirement of s. 1012.34(4), F.S.
- That district evaluation procedures require the district school superintendent to annually notify the Department of any instructional personnel who

receives two consecutive unsatisfactory evaluations and to notify the Department of any instructional personnel who are given written notice by the district of intent to terminate or not renew their employment, as outlined in s. 1012.34, F.S.

District Self-Monitoring

The district self-monitoring includes processes to determine the following:

- Evaluators' understanding of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability.
- Evaluators provide necessary and timely feedback to employees being evaluated.
- Evaluators follow district policies and procedures in the implementation of evaluation system(s).
- The use of evaluation data to identify individual professional development.
- The use of evaluation data to inform school and district improvement plans.
